

## BROOKBURN SCHOOL STREETS Mid-trial Update Meeting

Brookburn Primary's School Streets trial is part of a Greater Manchester regional programme to test out restricting through traffic for motor vehicles on Brookburn Road during peak times for school drop-off and pick-up.

Traffic volume and trial impact is being monitored and evaluated through two university-led research projects as well as a pupil self-reported active travel tracker.

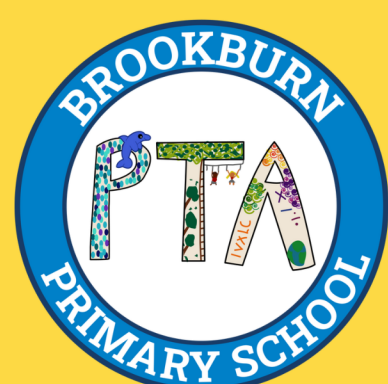

Join us to hear initial findings from the research to date and discuss aspects of the trial that have been successful or challenging and ideas for improvement for the Autumn term.

### SPEAKERS INCLUDE:

- Professor David Healy, University of Aberdeen  
School of Geosciences, Listen To Manchester Project
- Doctor Sarah Mander, University of Manchester  
Tyndall Centre for Climate Change Research, Local Traffic Monitoring Project
